REPORT OF THE LEGISLATIVE LIBRARY

Honourable Stewart E. McLean, Q.C.
Minister i/c of Libraries and
Historical Research.

Sir:

I have the honour to present the report of the Legislative Library for the calendar year 1966. The reports of the Archives Branch and the library serving the Departments of Health and Welfare follow. The report of the Director of Library Services is a separate report and is appended hereto.

The new members of the Legislature may not be too familiar with our library's resources and its services. To them we extend an invitation to visit the library and to see what services we render and what resources we have. In the interim, a few words concerning our library may be useful.

We are a special library, and one of our duties is to provide reference service to Cabinet Ministers, Members of the Legislature, and all departments of government. Our research facilities are available to the public. Research by correspondence has increased over the years and this medium is used by many who are not residents of Manitoba. Our emphasis is, of necessity, upon political science in all its growing ramifications - sociology, economics, history, and our responsibility is to obtain and develop sections devoted to all creeds of political and economic opinion.

Emphasis has been placed on the history of our province, and that of Western Canada. Our collection of local histories of our province is expanding continually.

Our library is a depository one and, as such, receives the official publications distributed by the governments of Canada, Provinces of Canada, and the United States. The United Nations and the International Labour Office documents are also held on a depository basis, as well as Great Britain's House of Lords and House of Commons statutes, journals, debates. A more complete list of documents procured in this manner is contained in the appendix to this report.

REFERENCE AND GOVERNMENT DOCUMENTS

The approach of the Centennial year saw greater use made of our Manitoba weekly newspapers for local history projects.

The Centennial of Canada and the approach of our own Provincial Centennial in 1970 increased the workload of the staff this past year. Subjects were: ethnic groups - Icelandic, Ukrainian, Latvian; the costumes of early Red River Settlement days; Dawson Route, Lake Agassiz, the Red River cart, Manitoba song, Flags, Manitoba's floral emblem and coat of arms, the development of northern Manitoba, the early trails, in addition to federalism and bi-lingualism, and general histories of Canada and Manitoba.

The compilation of local histories of Manitoba took an upward swing and 1967 - 1970 should see the results of these labours. Our holdings of the Manitoba weekly newspapers proved invaluable for research workers in this field. The local newspapers are the only source material for the economic and social growth of our towns and cities.

Other inquiries included Floods and the Manitoba Floodway, Land grants to Métis, Canada Assistance Plan, Integration of the Canada Pension Plan with other plans, Education (all phases), Highway programmes in other countries and provinces, Manitoba Development Fund, Ukrainian language in high schools, advantages of a two-party system, national income and expenditure, Hudson Bay Railway; election results, teachers' salaries in other provinces, Indian treaties, consumer credit, history of political parties.

The members of the Boys' Parliament are always interesting, but exacting. The reference staff's time during the periods of their sessions is, of necessity, devoted entirely to their needs.

NEWSPAPERS AND PERIODICALS

The bulk of the backlog of newspaper microfilming is completed. The ethnic papers are in the process of being filmed. The original papers have been transferred to dead storage and will be retained so long as it is feasible. Storage space outside the Legislative Building would be ideal as it would be more accessible than in the Dome, there being no elevator facilities for this area.

Papers microfilmed this year:

<u>Name of Newspaper</u>	<u>Dates Microfilmed</u>	<u>No. of Reels</u>
Brandon Blade	v.1#5 November 1, 1883 to v.1#26, Mar.27, 1884	1

**REPORT
OF THE
ARCHIVES
1966**

REPORT OF THE ARCHIVES

Honourable Stewart E. McLean, Q.C.
Minister i/c of Libraries and
Historical Research.

Sir:

I have the honour to present the report of the Archives for the calendar year 1966.

STAFF

Mrs. Louis^a Douglas, Clerk III, whose duties for a number of years included clerical work in the Provincial Library, was assigned to full-time duties in the Archives during the year, bringing the total staff to three persons.

PROJECTS

The celebration of the Centennial of Canada has given an expected and natural impetus to historical research in Manitoba and Canadian history. While few historical projects have been chosen by communities as official centennial projects many individuals have undertaken on their own initiative a programme of historical research, writing, and restoration. The greatly increased programme of publication throughout Canada as part of the Centennial celebration has demanded a corresponding increase in the work of historical research in both manuscript and photographic resources.

University theses, papers and studies based on research in the Archives during the year relate to the following subjects: Red River Settlement Social Life, Red River Geography, Red River Demography, Red River Architecture, Red River Agriculture, Law and Order in the Red River Settlement, Red River Dialect; French Canadians in Manitoba, Metis in Manitoba, Roman Catholic Parishes of the Pembina Mountain Area, Manitoba Trails, Western Settlement, Education in the North West Territories, Administration of Justice in the North West Territories 1870-1886, the Hudson's Bay Company 1870-1901; Patrons of Industry, Farmers' Alliance, the Progressive Movement, Manitoba School Question, Manitoba Politics 1910-1915, Manitoba Architecture, Manitoba Mills; Winnipeg Architecture, St. John's College, Winnipeg Economics, 1919 Strike, West Kildonan Schools, Home Economics in Winnipeg Schools; Mennonites in Mexico, Nazism in Canada, Prohibition in Canada, Social Welfare Agencies in Canada; Rev. John Black, R. P. Roblin, Archbishop Tache, Joseph Dubuc, Thomas Bunn, Thomas Button, Lord Selkirk.

Assistance has been provided to individuals or groups preparing local histories and papers on the following communities: Arden, Austin, Bender Hamlet, Cypress River, Dand, East Kildonan, Elmwood, Fisher Branch, Fort Frances, Fort Rouge, Gretna, Hamiota, Killarney, R.M. of Lansdowne, Macgregor, Manitou, Miami, Miniota, Neepawa, R.M. of Oakland, Rainy River, Rosburn, Russell, St. Boniface, St. Claude, St. James, Snowflake, Starbuck, Strathclair, Swan River, R.M. of Thompson, Vassar, Vista, R.M. of Woodworth.

MANUSCRIPT ACCESSIONS

Hartwell Bowsfield
Provincial Archivist

Miss Marjorie Morley,
Provincial Librarian,
Legislative Library.

Madam:

I have the honour to present the annual report of the Library of the Departments of Health and Welfare for the year 1966.

The function of the library is to collect, maintain and organize material pertaining to the fields of health and welfare. It serves the staff of the two departments and many others whose work is similar to that of the departments. In carrying out this function the library provides research, information and circulation services as well as the ordering and cataloguing of all professional literature required by the division offices and charged to their own appropriations. As the library is one of the largest of the small specialized libraries located in the Norquay Building, personnel from other government departments situated in the building utilize the basic reference collection.

There were some changes in the departments which effected the library to some degree. In the Health Department, an Ambulance Officer was appointed and the office of Medical Insurance Services organized. New welfare regional offices were established at Thompson and at Churchill. These offices ordered material and required information services.

As the statistics indicate reference and circulation services have increased. Research and information services provided covered many important topics. Sex education and medical insurance were the predominate ones and requests came from both lay and professional groups. Other topics in great demand were mental retardation, mental health legislation, poverty, child abuse, aged, Indian and Metis, epidemiology of disease in certain ethnic groups, traffic accidents, safety education, air and water pollution, and rehabilitation. In addition to the staff of both departments, inquiries came from other government workers, hospital personnel, social workers, probation officers, nurses, physicians, sanitary engineers, newspaper reporters, community clubs, study groups and private citizens. Students representing the following courses used the library during the year: social work, nursing, medicine, dentistry, home economics, laboratory and x-ray, practical nursing, and undergraduates of the University of Manitoba.

Technical services have remained constant. Book orders from the division offices increased, while pamphlet orders decreased. The two mental hospitals continued to order large numbers of books. In addition to the routine ordering of material for the division offices, the library ordered books for the Dental Services Division on behalf of the Manitoba Dental Association. These books, which of course were not catalogued, were purchased for the purpose of forming small travelling collections of dental health literature to be sent to the rural schools. Material was ordered for the Sewage and Water Treatment courses sponsored by the Public Health Engineering Division. Much correspondence was sent to foreign countries in order to obtain scientific and technical papers required by the Environmental Sanitation Division. Papers and reports were received from the U.S., Great Britain, Germany, Rumania, France, Italy and Belgium.

The library participates in the programs carried out by the two departments each year. Materials were selected and provided for the Health Education Workshop for teachers, Prenatal Institutes for public health nurses, Senior Nurse Conferences and Health Unit staff conferences of the Department of Health. Much of the background material required by the Public Health Nursing Division's 50th Anniversary celebrations was provided by the library. Library orientation was given to the social work students placed with the Department of Welfare and the library took part in the in-service train-

ing program for new welfare workers. All new staff members appointed to the departments received a tour and explanation of library services.

A small specialized library must collect current, up-to-date material as well as house important retrospective publications pertaining to its own field of interest. To achieve this goal it is necessary to maintain an active weeding program and this year many items which were not of essential value to the collection were added to the Provincial Library Duplicate Exchange list for the benefit of other libraries. A list of duplicate copies of general health and welfare pamphlets which the library collected over a period of two years was distributed to the rural health units and rural welfare regional offices. The response was overwhelming and all items were distributed. These rural offices maintain small reference collections for the use of their staff and the clientele they serve.

In addition to contributing to the National Union Catalogue and the Provincial Library Union Catalogue the library sent bibliographic information concerning publications produced by the departments to the Ontario Bibliography for Regional Development. Four lists of new additions to the collection were distributed in 1966. Monthly lists of selected books received by the library were published in the monthly newsletter of the Department of Health. Bibliographies published previously on sex education and mental retardation were reprinted and distributed in response to continued demand. Extensive bibliographies were prepared for staff on the following topics: ambulances and ambulance services, child abuse, and the health problems of the Indians in Manitoba and Canada.

The librarian attended the monthly directors' meetings of the Health Department and the Manitoba Public Health Conference. At the request of the Director of Dental Services she participated in the reviewing of dental health films for possible purchase by the department. At the request of the Provincial Librarian career talks were given to high school students interested in library service careers. Advice on the establishment of book collections in the Municipal Hospitals of Winnipeg and the Children's Aid Society of Western Manitoba was given at their request. For the third year the librarian has edited the Manitoba Library Association Bulletin which has provided her with a unique opportunity to discover new sources of information.

The library experienced several staff changes in 1966 with regard to the Clerk-Typist II position. Miss Norma Watts resigned in June to move East after seventeen years of service. She was replaced by Miss Debbie Harris who resigned in August to complete her high school education. In September the position was filled by Miss Diana Neufeld.

Throughout the year the library received assistance from many other libraries. In particular we wish to express our gratitude to the Provincial Library, Department of Agriculture Library, Medical and Dental College Libraries, Winnipeg Public Library, University of Manitoba Library, National Research Council Library and the National Library of Ottawa.

Respectfully submitted,

Pauline Roseman,
Librarian.

**REPORT
OF
DIRECTOR
OF
LIBRARIES
1966**

REPORT OF DIRECTOR OF LIBRARIES

The Honourable Stewart E. McLean, Q.C.
Minister i/c of Libraries and
Historical Research.

Sir:

Pursuant to the Public Libraries Act, R.S.M. Cap.212, I present the report of the Director of Libraries for the calendar year 1966.

1966 library votes

	<u>For</u>	<u>Against</u>	<u>Rejected</u>	<u>Result</u>
Town of Carberry	276	147	11	passed
R.M. of North Cypress	233	123	2	passed
R.M. of Rockwood	283	206		passed
Town of Stonewall	308	111		passed
R.M. of Woodlands	82	311	5	defeated
R.M. of Rosser	93	41	1	passed
R.M. of Swan River	147	47		passed
Town of The Pas	608	309		passed
Thompson	536	75	27	passed

Towns of The Pas and Thompson will operate municipal libraries, whereas the remainder are regional systems. The Rural Municipality of Swan River will unite with the North-West Regional Library, with headquarters in Swan River. This library system has a branch in Benito.

Amendments to the Public Libraries Act

1. Presentation of estimates to councils.

Each public library board, municipal and regional, is required to present to council a detailed estimate of sums required for the current year on or before January 15th, of the same year. This date was formerly November 15th for the next ensuing year.

2. Federation of Libraries.

Part 4 - Federation of Regional and Municipal Public Libraries - was an addition to the Act, permitting library boards to unite under a federated system of libraries. The member libraries would retain their local boards and would be represented on the federated board by two of its members. The system would result in larger library areas and thus operate more efficiently and economically. The main library or resource centre would provide: professional staff, professional guidance, reference resources, inter-library loan requests, book selection, and ordering and the technical services. Books would rotate among the member libraries.

The pilot project we are promoting is the area generally encompassed by the West-Man Regional Development Corporation Inc. It would be necessary for a majority of the libraries in the area to join to make the federation effective.

Several meetings have been held with the library boards both individually and collectively. At present there are some boards still reluctant to participate.

Public Library Openings

Winnipeg Public Library - West End Branch, 823 Ellice Avenue.

Centennial Libraries

Flin Flon Public Library, Flin Flon
Pilot Mound Public Library, branch of Lakeland Regional Library
Evergreen Regional Library, Gimli, Manitoba. (main branch of the system)
Russell and District Regional Library, Russell, Manitoba. (main branch of the system)

These libraries are operative, but require larger buildings. The new libraries are centennial projects of the areas they serve.

Glenwood, Souris Regional Library

Sunday, December 11th, 1966, a fire completely destroyed the building, books and equipment of the Glenwood, Souris Regional Library. This library was opened in 1958 and contained as of December 31st, 1965, 7812 books and 28 periodical titles. The library has been located in temporary quarters. Many libraries throughout the province have offered books on loan and as a gift so that the library may

remain functional. This gesture of good will is much appreciated by the Library Board.

Our staff is re-ordering books and equipment as quickly as possible, but it will be a few years before the library is back to its former standard.

Centennial Commission, Ottawa

The Centennial Commission will make a gift of books to public libraries throughout Canada, in English and French, in the fields of social sciences, arts and humanities. Two national meetings were held during the last year concerning the selection of books and also the selection of libraries to receive the gift. The allotment of moneys for public libraries in Manitoba is \$6,500.00 for 27 libraries, making a total of \$240.00 per library system.

Regulations regarding the selection of the Centennial Commission's gift.

- a) One third of the books must be selected from the Basic Canadiana list.
- b) A minimum of 20 per cent of the books selected must be in the other official language. Where the proportion between the English and French speaking population in your area is greater than 20/80, the number of books ordered in the other official language must reflect as accurately as possible the proportion between the English and French speaking population in the area served by your library.
- c) If possible, 20 per cent of the books selected should deal with other provinces and/or territories than your own.
- d) In view of the fact that some of the books included in the two lists may not be readily obtainable, the order should be made up to 20 per cent in excess of the budget allocated to your library or province and/or territory as the case may be. These books should be listed as the second choice (see order form).

General

Our library staff continues to select books, type orders, classify, catalogue, and distribute catalogue cards to twelve libraries. We maintain a union catalogue of the books held in these twelve libraries. There is, also, a book rotation system among six libraries and this has proven most successful and popular.

A statistical report follows.

Respectfully submitted,

Therese Thorley
Director of Libraries.

ESTABLISHMENT GRANTS - 1966

Thompson Public Library \$200.00

APPENDIX

Documents received as a depository library.

1. Government of Canada

(a) General

- Statutes - annual and revised
- Debates - Senate and Commons - daily and bound
- Bills - Senate and Commons
- Journals - Senate and Commons - daily and bound
- Royal Commissions
- Committee reports of Senate and Commons; standing select and special select
- Canada Gazette - parts I and II
- Canada Patent Office record and register of copyrights

(b) Departments of Government of Canada

- Departmental annual reports
- Reports published by branches and divisions of departments including separate reports and those issued in serial (numbered) and periodical form

The Dominion Bureau of Statistics material includes:

- Annual report
- Canada Yearbook
- Canada, 1966
- Daily bulletin
- Canadian statistical review - monthly
- Census - bound volumes and preliminary figures
- Division of agriculture
- Division of Education
- Division of Health and Welfare
- Division of Industry and Merchandising
- International trade division
- Labour and prices division
- Public Finance and transportation division
- Research and development division

(c) Books published occasionally by departments and published by Queen's Printer, Ottawa:

- e.g. Thompson: Men and meridians, 1966.

2. Provinces of Canada

- Statutes - annual and revised
- Journals - daily and bound
- Gazettes
- Bills
- Special reports and royal commissions
- Annual reports of departments
- Public accounts
- Estimates

3. United States Federal Government
Congressional record (bound volumes only)
Patent office records
Statistical yearbook
U.S. government manual
Annual reports of departments
Reports published by divisions and branches of departments
 including numbered serials and periodicals
 Monthly labor review - issued monthly
 Public Roads " "
 Dept. of State bulletin " "
